LILLY'S

SEATTLE-YAKIMA-PORTLAND

BULBS ROSES PLANTS, Etc.

LAWN GRASSES

The Fall and Winter months are ideal to make new lawns and to improve old ones. Grasses reseed naturally at this time of the year and weeds are not troublesome like they are in spring.

- LILLY'S NONPAREIL LAWN MIXTURE**
A mixture of hardy grasses and clover.
No. 1 Cartons (One quart) 40c, 5 lbs. \$1.85.
- LILLY'S IMPORTED LAWN MIXTURE**
A mixture of fine leaved grasses only.
No. 1 Cartons (One quart) 50c, 4 lbs. \$1.80.
- LILLY'S KENTUCKY BLUE GRASS**
No. 1 Cartons (One quart) 50c, 5 lbs. \$2.50.
- LILLY'S RED TOP or BENT** (*agrostis vulgaris*).
Fancy hulled seed per pound 35c.
- LILLY'S WHITE DUTCH or LAWN CLOVER**
No. 1 Cartons (One quart) 75c, 5 lbs. \$3.25.

(Prices subject to market changes).
For complete list of grasses suitable for lawns consult our Annual Catalog.

FERTILIZERS

An immense amount of good can be done on Lawns Shrubbery, Fruits etc. by fertilizing during the Fall and Winter months. We recommend the following fertilizers for this purpose.

- LILLY'S MORCROP FERTILIZER 2-10-2**
4-lb. Package 25c, 10-lb. Package 50c,
25-lb. Bag 80c, 100-lb. Bag \$2.75
- LILLY'S BONE MEAL**
10-lb. Package 40c, 100-lb. Bag \$2.75.
- LILLY'S BLOOD and BONE**
Per Bag of 100-lbs. \$3.00
- LILLY'S FISH FERTILIZER**
Per Bag of 100 lbs. \$4.00

AGRICULTURAL LIME

- Ground Lime Rock.** Per 100 lbs. 80c
Hydrated Lime. Per 100 lbs. \$1.50

(Prices subject to market changes)
For complete list of Fertilizers consult our Annual Catalog.

Sunburst. H. T., chrome yellow, shaded copper		1.50	15.00
Tipperary. New Irish rose, bright yellow		.75	7.50
Ulrich Brunner. H. P. Cherry red		.75	7.50

SPRING FLOWERING CROCUS

Among the earliest to blossom in the spring this little flower lifts its head almost before the snow has disappeared. Crocuses are always most popular on account of their earliness, hardiness and adaptability to grow in any soil, whether in lawns, Borders or Beds, or as undergrowth among Tulips, Hyacinths or Narcissus.

Plant from three to four inches apart and about two inches deep.

Variety	Color	Price Ea.	Doz.	100
Baron Brunow.	Bright purple, blue, free blooming, very fine.	.02	.20	1.50
King of the Whites.	Snow white, the largest of the whites.	.02	.20	1.50
Cloth of Gold.	Golden yellow, brown veined when opened.	.02	.20	1.50
Sir Walter Scott.	White striped a deep blue, extra large.	.02	.20	1.50

Weight $\frac{1}{4}$ lb. per dozen.

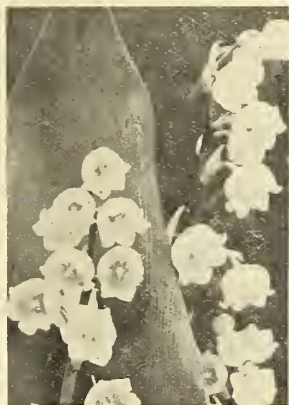

LILY OF THE VALLEY

(Convallaria Majalis)

This popular and fragrant subject, like most other plants, repays for being well treated, and if fertilized liberally will show the effect by increased size, number and vigor of flowers. Blooms are snow white and the fragrance is delicious.

Price Each 10c, Dozen, \$1.10, Hundred, \$8.25.

"Flowers are the beautiful hieroglyphics of Nature, by which she indicates how much she loves us."

—GOETHE

FREESIAS

Popular easily grown winter flowering bulbs. Blooms are white, lasting, fragrant and distinctive. They bloom freely in ordinary living room temperature and should not be kept to hot or moist. Half a dozen can be planted in a six inch pot, cover with an inch of good light soil and supply good drainage. the stalks are tender and should be supported.

Purity. Snow white. Price Each 2c, Dozen 20c, Hundred \$1.50.

RAINBOW FREESIAS

Same as above except the flowers are highly colored in all the rainbow tints. A distinct novelty.

Rainbow. Colored Price Ea. 7c, Dozen 70c, Hundred \$5.25.

VEGETABLE PLANTS and ROOTS

If large quantities are wanted write for special prices.

ASPARAGUS ROOTS

Giant Argenteuil. Conover's Colossal or Palmetto. One Year Plant, Price per Dozen 35c Hundred \$1.75. Two Year Plant. Price per Dozen 50c, Hundred \$2.50.

CHIVES

Strong Plants per Clump 20c, Dozen Clumps, \$1.75.

HYACINTHS

The Hyacinth is so well known that it is unnecessary to give any detailed description of its broad upright spike or truss usually thickly set with bell shaped flowers of wax-like texture. It succeeds well in the house and garden, adorning both with the varied colors and delicious fragrance of its showy flowers. Its culture is simple and, if attention is paid to the following directions success is certain.

Potculture Indoors Plant from September to Mid-winter in rich, light, sandy soil. Place the bulb so that its top will be just below the surface, care being taken not to pack the soil, as bulbs are less likely to push out when root growth commences if the soil is fine and loose. Water thoroughly and set in a cool, dark place for several weeks to allow of sufficient root growth, this being one of the essentials if spikes of generous size and long strong stems are desired. A succession of bloom may be had by bringing the pots into the light at different times. During their growth they should be kept near the light at a temperature of 50 to 70 degrees and watered freely.

Outdoor Culture Bulbs may be planted any time from September to Mid-winter. They succeed in any good garden soil well prepared and properly drained. Plant six to ten inches apart, covering four to five inches if the soil is light, but not more than two or three inches if it is heavy.

Culture in Glasses To grow Hyacinths in water, use dark colored glasses and place the bulb so that the base merely touches the water. Set in a cool dark place, until the roots have made a good growth, when they can be brought into the light. Give the plants plenty of light and fresh air and keep the temperature under 60 degrees until they begin to bloom. Keep the glasses filled with water, changing it entirely if it becomes impure.

SINGLE HYACINTHS

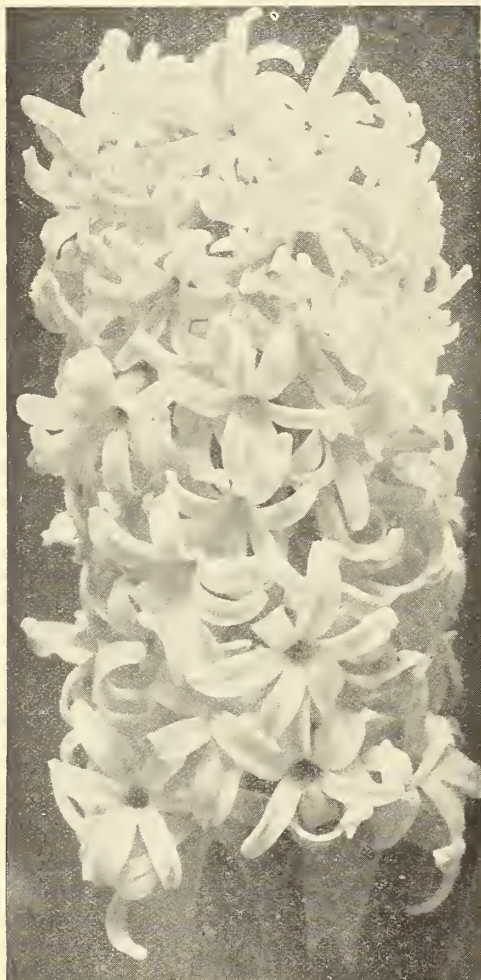

(Selected Bulbs)

The single Hyacinth is considered more useful and valuable than the double varieties. They are better for forcing, more vigorous ingrowth and usually produce much larger spikes of bloom than those of the double sort.

- Lady Derby** Vivid pink, fine spike of waxy bells, forces easily, extra fine.
- La Victoire.** Brilliant red, large well shaped spike, early, fine for exhibition.
- Queen of the Pinks.** Bright rosy pink, spike compact, large and well formed.
- La Grandesse.** Intense snowy white, large fine form, always gives satisfaction.
- L'Innocence.** Pure white, well formed, broad spike, early, forces easily.
- Perle Brilliant.** Clear porcelain blue with light center, large fine formed bells.
- Grand Maitre.** Light blue, broad well formed spike, recommended for forcing.
- King of the Blues.** Deep glossy blue, tall, compact, late, the finest dark blue.
- City of Haarlem.** Bright golden yellow, large loose spike, one of the finest.
- Yellow Hammer.** Deep yellow, broad spike, early, the best forcing yellow.

Second Size.....	1½-lbs.	6c	.65	5.00

HYACINTH L'INNOCENCE

A FLOWER GARDEN should have some protection on the north, if early flowers are desired. A southern or eastern exposure will permit the garden to get the benefit of the strong morning sunlight, which is so beneficial to plants. For a large amount of flowers in midsummer and the early beautification of a new place annual flowers will prove most satisfactory. Hardy perennials are deservedly popular, as they need little attention from year to year, but most of them are best fitted as background plants.

NARCISSUS or DAFFODILS

No early spring flower has become more popular than the Narcissus family. In beauty of form and color and in hardiness they hold a distinguished place in every garden. They are so easily grown that even the amateur can grow them in abundance. They are perfectly hardy and do well in any location, flowering and multiplying each year. Groups of Narcissus in the border with perennial plants or along the edges of shrubbery are exceedingly effective. Nothing is finer for winter flowering in window boxes or pots. Three or four bulbs can be planted in a six inch pot, give same treatment as early Tulips. For outdoor culture plant them five or six inches apart and four inches deep. In describing Narcissus reference is made to the "perianth" and "trumpet". The latter is the long funnel shaped tube or center while the perianth is the outer row of petals or wings.

NARCISSUS GRANDIFLORA

Paper Whites. Flowers pure snow white, desirable for their immaculate beauty and delicious fragrance. They force easily and well and flower freely in dense clusters. Can be made to bloom in eight to ten weeks if grown in water and treated same as Hyacinths.

Price each 8c, Dozen 85c, Hundred \$6.50.

Gardening means making gardens in the widest application of the word. By gardening we mean indeed ALL that goes into the embellishment of the surroundings of the home—that contributes to the use and the enjoyment of outdoors as part of the home.

Double Jonquils. Fragrant, double, large clear yellow.....	.06	.60	4.50

PEONIES

The Peony, of all the list of bulbous or tuberous rooted plants, is perhaps the oldest and best known inhabitant of the flower garden, many being very fragrant and all of massive size. The abundant dark green foliage is exceptionally clean and attractive.

Peonies do well in almost any garden soil, but the better enriched the soil, and the more liberal the space allowed for each plant, the more vigorous the growth.

In planting the roots cover the crown with two inches of soil. A deep lively loam is preferable and frequent cultivation desirable.

SPENCER SWEET PEAS

Sweet Peas, the most beautiful of the hardy climbing annuals, are very easy to grow, and thrive under ordinary garden conditions with very little care, but a little extra attention will be amply repaid in larger, earlier blooms and brighter colors.

On the Pacific Coast, where the ground does not freeze to any depth, the best time to plant is in November. They will apparently make very little growth during the winter, and it is better if the tops do not show above the ground until spring, but they will make a remarkable amount of root-growth which will induce a strong growth of vines very early in spring, producing better blooms and much earlier than if planted in spring. They may, however, be planted in February, March or April, and will do very well.

CHINESE SACRED LILY

(Narcissus Orientalis)

This is the variety grown by Chinamen for decorating their Temples or Joss Houses on their New Years Day. Flowers are satiny white with golden cup. They are borne profusely in clusters and are very fragrant. They grow equally well in soil or water and are treated the same as Hyacinths for indoor growing.

Price Each 20c. Dozen \$2.00
Hundred \$15.00
Weight $\frac{1}{2}$ lb. each.
